EDUCATION

MAR 2015
Holy Family High School - X - 330/500(66.00%)

FEB 2017
Tolani College of Commerce - XII - 402/600(61.85%)

OCT 2020
Tolani College of Commerce - B. Com - 5.58(CGPI)

JAN 2021
Aptech Computer – Full Stack Python

EXPERIENCE

AUG 2023
Skill Up IT Academy – Web-Developer (Present)

EXPERIENCE

- Good Listener
- Quick Learning Skills
- Teamwork Skills
- Sincere in Work

PROJECT

Project Name: Online Mock Test.
Software Used: HTML, CSS, Bootstrap, JavaScript
Description: I have experience developing an online test interface using HTML, CSS, and JavaScript. In one of my projects, I designed a web page that simulates an online test environment. This project demonstrates my proficiency in front-end web development and ability to create interactive and user friendly interfaces. It showcases my skills in HTML, CSS, and JavaScript, and the use of external libraries for styling and functionality.

Project Name: Scholarship Request Form.
Software Used: HTML, CSS, JavaScript, Bootstrap, jQuery
Description: Designed and implemented a dynamic and user-friendly Scholarship Request Form web page aimed at streamlining the application process. Leveraged HTML, Bootstrap, and Font Awesome for a modern and responsive user interface. The form incorporates essential fields such as name, WhatsApp number, email, and address, with options for selecting training courses. Noteworthy features include:
• Responsive Design: Ensured seamless user experience across various devices, catering to a diverse audience.
• Animation Integration: Incorporated subtle animations for an engaging and visually appealing presentation.
• External Library Integration: Utilized Bootstrap for efficient styling and layout and integrated Font Awesome for a visually enriched interface with modern icons.
• Form Progress Tracking: Included a progress bar to visually indicate the completion status of the application form, enhancing user engagement.
• Form Validation: Ensured data integrity and accuracy by implementing client-side validation for mandatory fields and input formats.
• Scripting for Enhanced Functionality: Incorporated Bootstrap and jQuery scripts to enhance form functionality, providing a seamless and interactive user experience.
